

Name _____

The Daily Habits of Iguanas

Open-Ended Response Answer Key

1. Iguanas need to stay warm during the day because they are cold-blooded and rely on sunlight for energy.
2. Iguanas find food by foraging for plants during the day, using their eyesight to spot leaves and fruits.
3. Iguanas stay safe by climbing trees, using their tails for defense, and hiding in plants or rocks.
4. Sunlight helps iguanas stay warm, which is necessary for digestion, movement, and staying alert.
