

Name _____

The Driver Dilemma: How Will Autonomous Vehicles Impact Jobs?

Short Answer Key

1. Answer: Autonomous vehicles could potentially replace taxi and ride-sharing drivers, leading to job displacement in this industry.
2. Answer: Human drivers may be required as backup drivers or to handle complex situations that autonomous vehicles cannot yet handle.
3. Answer: One aspect of human driving that remains valuable is the ability to make complex, real-time decisions, especially in unpredictable situations.
4. Answer: Workers can adapt by acquiring new skills and transitioning to other roles within the autonomous vehicle industry or other fields.
