

Name _____

The Inventor's Apprentice

Short Answer Key

1. Professor Invento invited Sam to work with him because he was impressed by Sam's incredible inventions.
2. Sam learned that making mistakes is a natural part of inventing and that each failure brings them closer to success. They also learned the importance of teamwork and collaboration in inventing.
3. Sam and Professor Invento worked on a machine that could create light with the touch of a button, which reminded Sam of Thomas Edison's light bulb experiments.
4. At the end of their week with Professor Invento, Sam felt inspired and filled with newfound knowledge and determination.
