

Name _____

Italy's Climate and Weather

Short Answer Key

1. Southern Italy has hot, dry summers and mild, rainy winters.
2. Northern Italy has cold, snowy winters, making it great for skiing and snowboarding.
3. Central Italy has mild weather with warm summers and cool, rainy winters.
4. Spring and fall have pleasant temperatures, making them great for sightseeing and outdoor activities.
5. Italy's different climates offer something for everyone—beaches in the south, history in central Italy, and winter sports in the north.
