## Italy's Climate and Weather

### Open-Ended Response Answer Key

1. Students should choose a region (north, central, or south) and explain why they would like to visit based on the climate.
2. People in northern Italy must prepare for cold winters, while those in southern Italy enjoy warm, sunny weather most of the year.
3. Italy is popular all year because people can enjoy warm beaches in summer, beautiful cities in fall and spring, and skiing in winter.
4. A country's location affects its climate—being near the sea keeps temperatures mild, while mountains bring cold and snow.
