

Name _____

Do Jellyfish Form Relationships with Other Species?

Short Answer Key

1. Mutualism is when both species benefit. Example: small fish get protection while cleaning the jellyfish.
2. Parasites harm jellyfish by feeding on their tissues.
3. Commensalism is when one species benefits without harming the other. Example: shrimp hiding on jellyfish.
4. Jellyfish help control plankton by eating them.
5. Sea turtles and large fish eat jellyfish.
