

Name _____

Journey to Jupiter

Open-Ended Response Answer Key

1. Answers may vary. (e.g., I would like to discover more about Jupiter's storms and its mysterious Great Red Spot because they seem so fascinating.)
2. Answers may vary. (e.g., Jupiter's storms are much larger and more powerful than Earth's, and its clouds are made of gas, not water vapor.)
3. Answers may vary. (e.g., I would choose Ganymede because it's the largest moon and might have interesting things to explore.)
4. Answers may vary. (e.g., I would tell them about the colorful clouds, the Great Red Spot, the many moons, and the powerful magnetic field of Jupiter.)
