

Name _____

Kangaroo Daily Habits and Behaviors

Open-Ended Response Answer Key

1. Being active during twilight helps kangaroos avoid the hottest parts of the day and conserve energy.
2. Living in a mob provides more eyes to watch for danger and offers better protection from predators.
3. (Example) If I were a kangaroo, I would use soft sounds and body movements to communicate with my mob.
4. Humans can learn the importance of nurturing and protecting young from how kangaroos care for their joeys.
