

Name _____

Critique of Pure Reason by Immanuel Kant

Open-Ended Response Questions

1. Discuss Kant's distinction between a priori and a posteriori knowledge and provide examples of each.
2. Explore the implications of Kant's concept of the phenomenal and noumenal worlds for our understanding of reality and knowledge.
3. Reflect on Kant's views on space and time as forms of human perception. How do these views challenge traditional notions of these concepts?
4. Analyze the significance of synthetic a priori judgments in Kant's philosophy and their role in shaping his epistemological framework.
