Name _____

Globalization and the Language Puzzle

Open-Ended Response Questions

1. In your opinion, is the spread of a global lingua franca like English a positive or negative aspect of globalization for languages? Explain your reasoning.

2. Imagine you belong to a community that speaks a lesser-known language threatened by globalization. What steps would you take to preserve your language and culture?

3. How might the internet and social media help in the revitalization of endangered languages? Provide examples of online initiatives that support language preservation.

4. Reflect on a personal experience where you have witnessed the impact of globalization on language. How did this experience shape your views on language diversity and globalization?
