

Name _____

Living in Each Layer of the Atmosphere

Open-Ended Response Answer Key

1. It helps us understand weather, space travel, and how to protect Earth.
2. I'd want to visit the thermosphere because the space station is there, and it would be exciting to float in space.
3. They show how conditions change with height, and how each layer has a different role in protecting Earth.
4. They block harmful radiation, stop meteors, and hold the air we need to breathe.
