

Name _____

Beyond the Waves: Exploring the Lifespan of Dolphins

Open-Ended Response Questions

1. What are some environmental and human-induced factors that influence the lifespan of dolphins, and how do these factors affect their overall health and survival?
2. How does pollution impact dolphin populations in the wild, and what are some specific types of pollution that pose significant threats to these marine mammals?
3. Describe the various ways human activities impact dolphin populations and their habitats. How do these activities increase the vulnerability of dolphins to other stressors?
4. What are some conservation measures in place to protect and conserve dolphin populations, and how do these efforts aim to mitigate the impacts of human activities on dolphins and their habitats?
