

Name _____

What Does a Panda Look Like?

Short Answer Key

1. A panda's black-and-white fur helps it blend into its surroundings, like shadows and snow, to stay safe.
2. Adult pandas are 4 to 5 feet long from head to tail.
3. A panda's "thumb" helps it grip and hold bamboo while eating.
4. A panda's thick, woolly fur keeps it warm in the cool mountain forests.
5. Pandas have large molar teeth to crush tough bamboo stalks.
