

Name _____

The Mischievous Magic Crayons

Once upon a time, in a colorful crayon box, there were seven magic crayons. Each crayon had its own special power. Red could make things hot, Blue could make things cold, Yellow could make things float, Green could make things grow, Orange could make things shrink, Purple could make things change colors, and Pink could make things dance! One day, the crayons decided to create a fantastic rainbow in the sky using their magical powers.
