## The Magic of First Love

### Open-Ended Response Answer Key

1. Students can share personal experiences or stories related to their first love, describing their feelings and what they learned from the experience.
2. Students can discuss their interpretation of the "rollercoaster of emotions" description and share whether they have felt this way in their own experiences.
3. Students can speculate on the importance of a person's smile in the context of first love and how it can impact one's emotions and feelings.
4. Students can explore the uncertainties and challenges of first love, such as fear of rejection or not knowing if the feelings are reciprocated. They can provide examples from their own experiences or observations.
