## Silent Victims: The Impact of Water Pollution on Marine Life

### Open-Ended Response Questions

1. Discuss the role of public awareness and individual action in addressing plastic pollution and its impact on marine ecosystems.
2. Explore potential solutions for reducing chemical contamination in marine environments and protecting marine organisms from exposure to harmful pollutants.
3. Reflect on the importance of marine protected areas in conserving biodiversity and safeguarding vulnerable marine habitats from the impacts of water pollution.
4. Analyze the role of international cooperation and environmental treaties in addressing global issues such as overfishing and illegal fishing practices.
