

Name _____

Exploring the Marvelous World of the Internet

Open-Ended Response Answer Key

1. The Internet is like a super-fast library where you can find information, play games, watch videos, and talk to people from all over the world. It's essential because it helps us learn, have fun, and connect with others.
2. I used the Internet to research a school project. I searched for information about space exploration, found articles and images, and used them to create a fantastic presentation that impressed my teacher and classmates.
3. Answers may vary. Some may say the Internet has more positive effects because it helps with education, communication, and entertainment. Others may mention negative effects like addiction and privacy concerns.
4. Without the Internet, I couldn't do online homework research, play video games with friends, or watch funny cat videos whenever I want. Life would be less convenient and connected.
