

Name _____

Unraveling the World of Materials Engineers

Open-Ended Response Questions

1. Imagine you are a Materials Engineer tasked with developing a new material for use in lightweight bicycles. Describe the steps you would take in the morning to assess materials and plan experiments.
2. Explain why effective communication skills are essential for Materials Engineers when collaborating with teams to develop and test materials.
3. How do Materials Engineers contribute to making products more environmentally friendly?
4. Can you provide an example of a material-related challenge that Materials Engineers might encounter and need to solve?
