

Name _____

Stellar Dreams: The Astral Odyssey of Robert Maximus

Open-Ended Response Answer Key

1. Based on Robert's story, essential qualities and skills for a successful astronaut include determination, physical fitness, scientific knowledge, adaptability, and a strong sense of curiosity and wonder about the universe.
2. Space exploration is important because it can lead to scientific discoveries, technological advancements, and a better understanding of our place in the universe. It also inspires future generations and fosters international cooperation.
3. Robert's childhood fascination with the night sky likely inspired his career choice as an astronaut and his lifelong dedication to exploring space. It ignited his passion and determination to reach for the stars.
4. Robert might advise young aspiring astronauts to work hard, never give up on their dreams, pursue education in relevant fields, stay physically fit, and never lose their sense of wonder and curiosity about the universe.
