## Metamorphosis Magic: The Transformation of Butterflies

### Short Answer

1. Where do butterflies typically lay their eggs, and why?
2. What is the main goal of a butterfly larva, and how does it achieve this goal?
3. Describe what happens to the larva during the pupal stage.
4. How do butterflies emerge from the chrysalis, and what happens afterward?
5. What activities does a butterfly focus on as an adult, and why are these activities important?
