## Why Is It Raining on One Side of Town but Sunny on the Other?

### Short Answer Key

1. Small weather systems or clouds only affect certain areas.
2. They can cause air to rise and cool, which can lead to rain on one side.
3. A small rainstorm that happens in just one area.
4. Because small weather systems may only be over one part of town.
5. They use radar, satellites, and weather maps.
