How Do Meteorologists Predict the Weather

Open-Ended Response Answer Key

1. So you can be prepared for rain, storms, or other weather events
2. People might get caught in storms, miss flights, or be unprepared for dangerous weather
3. They give warnings about storms, heat waves, or snow so people can stay safe
4. Answers will vary; ideal responses include reasons like "satellite because it shows big storms" or "computer because it helps with predictions"
