## A Day in The Life of a Meteorologist

### Open-Ended Response Answer Key

1. Example: "Yes, because I like science and want to help people stay safe from storms."
2. Example: "Meteorologists use tools and data to solve real problems, like warning about bad weather."
3. Example: "I used a forecast to know if I needed a raincoat for school."
4. Example: "Because weather is always changing and even small changes can make a big difference."
