Name _____

How Do Mosquitoes Move? Buzz and Glide

Open-Ended Response Questions

1. Why do you think mosquitoes are built to be agile instead of fast fliers?

2. How might the way mosquitoes move help them find food and avoid danger?

3. If mosquitoes could not hover, how do you think it would affect their ability to feed or find mates?

4. Imagine you were a mosquito. Which type of movement—flying, wriggling, or hovering—would you use the most, and why?
