## Quest for New Lands

### Open-Ended Answer Key

1. Sample Answer: European exploration brought wealth and new goods to Europe, but it caused suffering for Native Americans by taking their land and spreading diseases.
2. Sample Answer: Answers will vary. Students may argue that the harm to Native Americans was too great or that the progress in trade and knowledge was significant.
3. Sample Answer: There might have been less conflict, and Native American cultures could have thrived alongside European settlers.
4. Sample Answer: We can learn to respect other cultures and understand the impact of our actions on others.
