

Name _____

Virtual Reality Voyage: Exploring New Worlds

Short Answer Key

1. Answers may vary. (e.g., I can become an astronaut and explore outer space.)
2. A virtual reality headset works by displaying 3D computer-generated images on a screen inside the headset, creating an immersive and interactive experience.
3. Answers may vary. (e.g., My favorite thing about virtual reality is going on adventures and feeling like I'm really there.)
4. Virtual reality adventures are fun because you get to go on exciting journeys, and they are educational because you can learn about history, science, and more while playing.
5. Answers may vary. (e.g., In my virtual world, I would have a magical forest filled with talking animals and hidden treasure.)
