

Name _____

Magical Resolutions Academy

Open-Ended Response Answer Key

1. The Magical Resolutions Academy combined magic with personal growth and self-improvement by teaching students how to use magic to achieve their New Year's Resolutions. This approach emphasized that magic could be a tool for self-improvement and achieving personal goals. It impacted the students' lives by instilling in them the belief that with effort and determination, they could overcome challenges and transform themselves.
2. (This response will vary depending on the individual's chosen resolution and how they would use magic to achieve it.)
3. The story emphasizes the importance of determination by showing how students at the academy faced challenges and setbacks while working on their resolutions. They learned that setbacks are a part of the journey and can be overcome with perseverance. Teamwork was highlighted when students joined forces to protect the garden during the storm, showcasing the idea that working together can lead to success. Learning from challenges is a key theme, as the students embraced challenges as opportunities for growth and self-improvement.
4. If I could attend a magical school like the Magical Resolutions Academy, I would choose the resolution to become a better problem solver. I would use magic to enhance my critical thinking skills and creativity, allowing me to approach problems with innovative solutions. Magic could help me achieve this by providing me with unique tools and abilities to overcome challenges.
