

Name _____

The Resolution Revolution

Short Answer Key

1. Resolution Pods worked by using nanotechnology to instantly fulfill a person's New Year's Resolution when they stepped into the pod and thought about their goal or aspiration.
2. Lily was inspired to take action when she noticed that people in her futuristic world had lost the sense of dedication and perseverance that came with achieving their resolutions through effort and practice.
3. Lily encouraged people to embrace the journey of achieving their resolutions by organizing dance classes and workshops, where she motivated them to rediscover the satisfaction of progress and the thrill of improvement.
4. By the next New Year's Eve, Resolution Centers started offering programs to help people achieve their goals through dedication and practice, emphasizing the value of hard work and effort in the resolution process.
5. The lesson from the story is that while technology can assist in achieving goals, the journey, effort, and dedication are essential components of personal growth and success. Instant gratification may seem appealing, but it often comes at the cost of the valuable experiences and sense of achievement that come from hard-earned success.
