

Name _____

Plastic Seas and Vanishing Coral: Human Impact on Ocean Pollution and Marine Life

Short Answer

1. Explain how plastic pollution affects marine life and ecosystems.
2. Describe one consequence of overfishing on marine ecosystems.
3. How does ocean acidification impact marine organisms with shells or skeletons?
4. What message does Chris Jordan convey through his artwork, and how does he use visual narratives to raise awareness about ocean pollution?
5. Provide an example of a marine species threatened by climate change and explain why it is vulnerable.
