

Name _____

Beware of the Phishermen: Safeguarding Against Phishing Attacks

Short Answer

1. Explain in your own words what phishing attacks are and how they deceive people.
2. Name two types of phishing attacks and briefly describe how they differ.
3. Why is it important to be skeptical of unsolicited messages, especially if they ask for personal information?
4. What steps can you take to avoid falling victim to a phishing attack?
5. How does two-factor authentication (2FA) enhance your online security against phishing attacks?
