

Name _____

Pigeon's Next Plan

Open-Ended Response Answer Key

1. (Student's creative response) Maybe the pigeon would try to drive a fire truck, a rocket, or even a submarine!
2. Some may say persistence is good because he keeps trying, while others may say he should learn to accept "no" sometimes.
3. A good explanation might be: "Pigeons don't have hands, don't know the rules of the road, and could crash!"
4. A student might compare it to another book with a twist ending, like Click, Clack, Moo: Cows That Type, where the animals get the last laugh!
