Pins and Basting: Stitching It All Together!

Short Answer

1. Explain why it's important to use the right type of pins for your fabric when pinning layers together.
2. How should you position the pins when inserting them into fabric layers to prevent shifting during sewing?
3. What should you do if your basting stitches are too close to the fabric edge and might interfere with the final seam?
4. Why is it necessary to leave a few inches of loose thread at the beginning and end of basting stitches?
5. Describe a situation where you might choose to baste fabric layers in smaller sections rather than basting the entire project at once.
