

Name _____

Diving into Clean Water: Water Privatization and Public-Private Partnerships

Open-Ended Response Answer Key

1. Answers will vary. Students should discuss potential changes in water quality, access, and the financial impact on households.
2. Accountability is essential to ensure that private companies meet standards, provide affordable access, and prioritize community needs over profits.
3. Answers will vary. Students should provide reasons for their choice, considering the importance of clean water for health and well-being.
4. Answers will vary based on current events or examples students find through research. Possible examples include situations in different countries or regions where water privatization or PPPs had notable effects on communities' access to clean water.
