

Name _____

Where Does a Raccoon Live?

Open-Ended Response Answer Key

1. Raccoons' ability to find food in garbage and shelter in human-made structures helps them survive in cities.
2. Raccoons can live in many habitats because they are resourceful and can eat a wide variety of foods.
3. Challenges raccoons face in urban areas include finding safe shelter, avoiding cars, and staying away from humans and pets.
4. Answers will vary. Example: "If I were a raccoon, I would prefer to live in a forest because it has plenty of trees and natural food sources."
