

Name _____

What Are Raccoons' Daily Habits and Behaviors?

Short Answer Key

1. Raccoons are nocturnal because they are most active at night and rest during the day.
2. Raccoons teach their kits to find food, climb trees, and stay safe from predators.
3. Raccoons stay safe from predators by climbing trees, swimming, or making warning sounds like hisses and growls.
4. Raccoons might gather in groups during the winter to stay warm.
5. Raccoons adapt to different environments because of their intelligence, problem-solving skills, and ability to eat a wide variety of foods.
