## Zooming into Action: Super Fast Racing Cars

### Short Answer Key

1. Racing cars go faster due to special tires and powerful engines.
2. Race car drivers wear helmets and special suits for safety.
3. When a race begins, the engines roar, and the cars race around the track, aiming for the finish line.
4. Strategy is important in racing because drivers have to make quick decisions, such as when to overtake opponents or when to hit the brakes.
5. Answers may vary. (e.g., I would want my racing car to be bright red because it's my favorite color and it stands out on the racetrack.)
