Name _____

Molecules in Action: Understanding Reactants and Products in a Chemical Reaction

Short Answer

1. Explain the role of reactants in a chemical reaction using an example.

2. Describe what happens during the transformation process in a chemical reaction.

3. Provide an example of a chemical reaction and write its balanced equation.

4. How does the conservation of mass principle relate to chemical reactions?

5. What did Antoine Lavoisier contribute to the field of chemistry?
