## Do Lions Form Relationships with Other Species?

### Short Answer Key

1. Mutualism is when both species benefit, like oxpeckers eating ticks off lions.
2. Vultures benefit by feeding on leftover food from a lion's hunt.
3. A tick feeding on a lion is parasitism because it harms the lion while benefiting the tick.
4. Oxpeckers remove harmful ticks, helping lions stay healthy.
5. Lions and hyenas compete because both hunt similar prey and fight over food.
