## Where Does a Rhinoceros Live?

### Short Answer Key

1. Rhinos can be found in Africa and Asia.
2. White rhinos prefer grassy plains, while black rhinos live in areas with bushes and shrubs.
3. Rhinos need large areas to find enough food, water, and space to roam.
4. Conservationists create reserves and national parks to protect rhinos' habitats.
5. Javan and Sumatran rhinos eat plants and leaves found in the rainforests.
