Name _____

Threats and Dangers Faced by Rhinoceroses

Open-Ended Response Questions

1. Why do you think rhino horns are so highly valued, even though they are made of the same material as fingernails?

2. What might happen to rhino populations if poaching is not stopped?

3. How do mud baths help rhinos stay healthy in the wild?

4. Imagine you are part of a conservation team. What steps would you take to protect rhinos from both poachers and environmental threats?
