

Name _____

Do Rhinoceroses Form Relationships with Other Species?

Open-Ended Response Questions

1. Why do you think the relationship between rhinos and oxpeckers is an example of mutualism?
2. How would a rhino's health be affected if there were no oxpeckers in its habitat?
3. What might happen to smaller animals if rhinos disappeared from their ecosystems?
4. Imagine you are a scientist studying rhino relationships. What tools or methods would you use to observe how rhinos interact with other species?
