

Name _____

Risk: A Global Battle of Strategy and Conquest

Short Answer Key

1. A player can win the game of Risk by successfully completing their secret mission card or eliminating all opponents.
2. The three main phases of play in Risk are the Reinforcement Phase (where players receive reinforcements and may exchange mission cards), the Attack Phase (where players launch attacks on enemy territories), and the Fortification Phase (where players can move armies between their territories).
3. Albert Lamorisse was inspired to create the board game Risk as a form of entertainment for his friends and family.
4. Risk can be played with more than 6 players by using additional game sets and combining the boards.
5. Players resolve combat in Risk by rolling dice, with higher numbers on the dice resulting in victory in battles.
