Safeguarding Our Seas: The Vital Need for Clean Oceans

Open-Ended Response Questions

1. Describe a specific incident or news story related to ocean pollution that has had a significant impact on your awareness of this issue. How did it make you feel, and what actions, if any, did you take as a result?
2. Imagine you are in charge of a coastal cleanup initiative. Explain your plan for organizing and executing a successful cleanup event in your local area.
3. Discuss the role of government regulations and policies in preventing ocean pollution. What additional measures or laws do you think should be in place to address this issue effectively?
4. Think about a world where humans ignored the importance of clean oceans. Describe how this could affect not only marine life but also our everyday lives and future generations.
