## Safeguarding Our Seas: The Vital Need for Clean Oceans

### Open-Ended Response Answer Key

1. Students should share a specific incident or story, describe their emotional response, and explain any actions they took or plan to take in response.
2. Students should outline their plan for organizing a coastal cleanup event, including details like location, volunteers, cleanup methods, and goals.
3. Students should discuss the role of government regulations, propose additional measures, and explain their reasons for these suggestions.
4. Students should describe the potential consequences of ignoring the importance of clean oceans for marine life, climate stability, and human well-being.
