

Name _____

The Silly Science Experiment

Open-Ended Response Answer Key

1. Possible Answer: I would mix baking soda and vinegar to make a volcano eruption!
2. Possible Answer: They laughed because the colorful liquids were doing something fun and surprising, and it made them happy.
3. Possible Answer: The liquids could have turned purple if the blue and red mixed together.
4. Possible Answer: I would want to try making slime and see if it can glow in the dark.
