

Name _____

How Solar Cookers Work How They Help Feed People in Remote Areas

Short Answer Key

1. By sealing in heat with a clear cover and focusing sunlight into one spot.
2. Aluminum foil and mirrors.
3. Because power and gas might not be available, but the sun still shines.
4. They don't use fuel, so they don't create pollution or cut down trees.
5. They only work when there is enough sunlight.
