

Name _____

What Are Squirrels' Daily Habits and Behaviors?

Short Answer Key

1. Squirrels are most active in the early morning and late afternoon.
2. Squirrels warn others of danger by flicking their tails, chattering, or freezing.
3. During the winter, squirrels stay in their nests and rely on stored food.
4. Ground squirrels make their homes in burrows underground.
5. Young squirrels play to practice survival skills like climbing and balancing.
