

Name _____

What Is a Squirrel's Life Cycle Like?

Short Answer Key

1. Baby squirrels are called kits.
2. During the juvenile stage, young squirrels learn to climb, find food, and avoid predators.
3. A mother squirrel cares for her kits by feeding them milk, keeping them warm, and protecting them in a safe nest.
4. Squirrels are ready to live on their own at about three to four months old.
5. In the wild, squirrels face challenges like predators and harsh weather.
