

Name _____

The Appearance of a Stink Bug

Short Answer Key

1. A stink bug's body is shield-shaped.
2. The stink bug's color helps it camouflage and avoid predators.
3. It uses its piercing-sucking mouth to feed on plant juices.
4. When they fly, stink bugs reveal hidden, often bright colors to surprise predators.
5. The unpleasant odor discourages predators and warns them to stay away.
