Badminton Strategy: Outsmarting Your Opponent

Open-Ended Response Questions

1. Describe the difference between a clear and a drop shot in badminton. When might you use each of these shots strategically?
2. Imagine you're playing a singles match, and your opponent always seems to return your smashes easily. What adjustments in your strategy could you make to overcome this challenge?
3. Discuss the role of shot placement in badminton strategy. Provide examples of when and why you might aim for specific areas of the court.
4. Think about a situation where you are playing against an opponent who is much faster and more agile than you. How can you use strategy and tactics to level the playing field?
